3 participate in the transformation of the world's energy system in a flexible and inclusive manner. We welcome, in particular, the five key opportunities* recommended to reduce GHG emissions

Energy Matters - International Energy Agency

With 159 Members, IRENA plays a leading role in the energy transformation as a centre of excellence for knowledge and innovation, a global voice for renewables, a network hub and a source of advice and support for countries.. More

IRENA – International Renewable Energy Agency

The General Assembly of the United Nations declared 2012 to be the International Year of Sustainable Energy for All. Initiatives by Member States and international organizations are being undertaken to create an enabling environment at all levels for the promotion of access to energy and energy services and the use of new and renewable energy

ENERGY-SMART – FOOD FOR PEOPLE AND CLIMATE

Bluetooth® low energy and the automotive transformation 2 September 2017 Introduction The automotive industry has been experiencing a tremendous transformation. For many consumers, cars are evolving from being just a transport medium to becoming

Bluetooth® low energy and the automotive transformation

Global warming is a long-term rise in the average temperature of the Earth's climate system, an aspect of climate change shown by temperature measurements and by multiple effects of the warming. The term commonly refers to the mainly human-caused observed warming since pre-industrial times and its projected continuation, though there were also much earlier periods of global warming.

ACCOUNTANTS FOR BUSINESS The changing role of the CFO

Renewable energy is energy that is collected from renewable resources, which are naturally replenished on a human timescale, such as sunlight, wind, rain, tides, waves, and geothermal heat. Renewable energy often provides energy in four important areas: electricity generation, air and water heating/cooling, transportation, and rural (off-grid) energy services.
