Baran, Richter Essentials of Heterocyclic Chemistry-I

A heterocyclic compound or ring structure is a cyclic compound that has atoms of at least two different elements as members of its ring(s). Heterocyclic chemistry is the branch of organic chemistry dealing with the synthesis, properties, and applications of these heterocycles.. Examples of heterocyclic compounds include all of the nucleic acids, the majority of drugs, most biomass (cellulose ...

Baran, Newhouse, Seiple Essentials of Heterocyclic

Heterocyclic amines, also sometime referred to as HCAs, are chemical compounds containing at least one heterocyclic ring, which by definition has atoms of at least two different elements, as well as at least one amine (nitrogen-containing) group. Typically it is a nitrogen atom of an amine group that also makes the ring heterocyclic (e.g., pyridine), though compounds exist in which this is not ...

Going for gold: The mono \hat{c} and di \hat{c} chloroform solvates of [Au₂ (\hat{I} \hat{c} 1,2 \hat{c} bis(diphenylarsino)ethane)₂](AsF₆)₂ undergo single \hat{c} crystal \hat{c} to \hat{c} single \hat{c} crystal transformations that result in gain or loss of only one chloroform molecule and changes in the structure and luminescence of the digold cation.

Chemistry \hat{c} A European Journal: Early View

Science Journal of Analytical Chemistry(SJAC) provides a forum for the publication of scientific research and review articles. The journal publishes original full-length research papers in all areas related to theoretical and objects analyzed applied aspects of analytical chemistry. General issues contain critical review articles, news, meeting reports, book reviews and meeting announcements.

American Journal of Applied Chemistry (AJAC) a peer-reviewed open access journal published bimonthly in English-language, provides rapid publication of articles in all areas of applied chemistry and its applications. The attendant goal is to promote widespread acceptance of the Journal as an authoritative and indispensable holding in academic and institutional libraries.

American Journal of Applied Chemistry :: Science

Bioorganic & Medicinal Chemistry publishes complete accounts of research of outstanding significance and timeliness on all aspects of molecular interactions at the interface of chemistry and biology, together with critical review articles. The journal publishes reports of experimental results in medicinal chemistry, chemical biology and drug discovery and design, emphasizing new and emerging ...

The trifluoromethylthio group (SCF₃) is a fluorine chemotype that has experienced a strong acceleration of interest in the recent years. It is particularly true of the construction of new fluorinated architectures by electrophilic trifluoromethylthiolation.
