multispecialty approach to care at every phase. Our palliative care services ensure that the whole person and family receive coordinated management of symptoms, treatment side effects, pain and emotional support in the face of complex illness. Choreographed, proactive symptom management enhances quality of life for our palliative care patients.

### **Hospice and Palliative Care - altercareonline.com**

As an adjunct or supplement to some of the more "traditional" care options, both hospice and palliative care protocols call for patients to receive a combined approach where medications, day-to-day care, equipment, bereavement counseling, and symptom treatment are administered through a single program.

### **Hospice Vs. Palliative Care - caregiverslibrary.org**

Hospice Care ≠ Hospice is the gold standard of care at the end of life. Hospice teams are multidisciplinary (including a physician, nurse, social worker, chaplain, and volunteers), but the referring physician remains in charge of the plan of care.

### **Hospice Care - an overview | ScienceDirect Topics**

In hospice and palliative care, music therapists use methods such as song writing, improvisation, guided imagery and music, lyric analysis, singing, instrument playing and music therapy relaxation techniques to treat the many needs of patients and families receiving care.
