Nerve injury is injury to nervous tissue. There is no single classification system that can describe all the many variations of nerve injury. In 1941, Seddon introduced a classification of nerve injuries based on three main types of nerve fiber injury and whether there is continuity of the nerve. Usually, however, (peripheral) nerve injury is classified in five stages, based on the extent of ...

Communication Barrier #1 Lack of Enthusiasm. Do you really believe your product is better than the competition's? Do you look as confident as you say you are? The benefits of your product will not be believable if you don't communicate your passion, enthusiasm, and commitment through your facial expressions.

6 Communication Barriers and How You Can Avoid Them

loss of neuromuscular coordination. Atropine poisoning, although distressing, is rarely fatal even with large doses of atropine, and is self-limited if the cause is recognized and the atropine medication discontinued. Treatment includes supportive measures including maintaining a patent airway and assisting respiration if needed.
