in a given treatment centre, or alternatively, exclusionary policies of a treatment centre, or factors that may differentially influence a person's decision to seek help.

What is comorbidity and why does it occur?

INTRODUCTION. Children with Down syndrome have multiple malformations, medical conditions, and cognitive impairment because of the presence of extra genetic material from chromosome 21. 1,2 Although the phenotype is variable, there typically are multiple features that enable the experienced clinician to suspect the diagnosis. Among the more common physical findings are hypotonia, small ...
